Commissioner of Patents

The communication, filed on 11/19/01, is non-responsive to the prior Office action, mailed 7/18/01, because the corrected formal drawings filed with said communication contain numerous errors. In summary, in Figures 2A and 2B, the ordinate is labeled incorrectly via the word "RATION", whereas "RATIO" was originally filed for these drawings. In Figure 4 the ordinate LOG 10 values which are negative numbers are ten fold smaller than these same numbers as filed for Figure 4, e.g., -.01 versus -0.1 as filed. In Figure 8A one of the LOG 10 ordinate values as well as one of the LOG 10 abscissa values is now -.05 versus -0.5 as filed. In Figures 8A and 8C the Concentration/Titration should be checked as to whether it is micg/ml vs. mica/ml. In both of Figures 8B and 8C one of the abscissa values is -.05 vs. -0.5 as filed. Applicants are reminded that a PTO-948, sent with the office action, mailed 7/18/01, included an Attachment requiring drawing corrections within the time period set in the attached Office communication. Since the response appears to be *bona fide*, but through an apparent oversight or inadvertence failed to provide a complete response, applicant is required to complete the response within a time limit of one month from the date of this letter or as extended as follows. AN EXTENSION OF THIS TIME LIMIT MAY BE GRANTED UNDER EITHER 37 C.F.R. § 1.136(a) OR (b) UP TO A MAXIMUM OF SIX MONTHS.
